

# CHS - Bio

**Greta Morris - "Hot Canary"**

1955

**Well I guess it's about time to let you know what I have been doing the last 50 years of my life, so here goes.....**

**I loved going to Central, being on the daze and assembly, with my violin (Hot Canary) and some other songs all 3 years. It was great being selected to be on Ritz week my sophomore year was an honor. That year was the last year that Central had Ritz week. My senior year I was selected to be 1<sup>st</sup> chair (concert mistress) of the All State Orchestra in Oklahoma City. This topped off my accomplishments with my fiddle in high school. I thank all of you for all the encouragement.**

**My best moment in school was meeting my future husband, John Cailloux, in October of my sophomore year. It was love at first sight for the both of us. We started going steady and never stopped. We became engaged my senior year at a Christmas party in the Beta Theta Pi house at O.U.. Afterwards his frat brothers sang their sweetheart song to me in the candlelight...It was very romantic. We married the following December 29<sup>th</sup>, 1956 and will have been married for 50 years three months to the day after this reunion.**

**We have 2 children, a son, John 3<sup>rd</sup> and a daughter. After our son finished college, he began a successful 17 year career in the computer software industry, specializing in database and CRM solutions. He later moved into corporate I.T. environment, eventually be promoted to vice president of information technology. Three years ago he developed colon cancer, then liver cancer and now the cancer is in his lymph system. He has 4 children, two in college and two in high school. (Please keep him in your prayers)**

**Our daughter, Suzanne has also had a successful career. She opened her own business 3 years ago. She is a medical consultant and her company does surgical coding and billings. She has 3 daughters and one son. One daughter works in her business and the other two work in other areas. Her son joined the marines after high school graduation and served 3 months in Iraq. He will start school in August to learn the heating and air conditioning business. We are so very proud of our children and grandchildren.**

**John and I have always loved to travel and have fun. We first had a place at the lake with a boat to have family and friends. This is where I met classmate Jacqueline Slagle Wilson. We didn't fish so we just skied and had cook outs.**

**(Down for more)**

After several years we sold the place and decided to buy a motorhome. We traveled all over the US except the northeast. We made several trips to old Mexico and to Canada with other motorhome friend to fish in the lakes up there. While in a motorhome club we hosted Chill Wills and his wife at a big 6 state rally in Oklahoma City. A few weeks later he came to Tulsa and made several commercials for our Lafayette radio store. Keeping him sober was our greatest job. All in all, he was a great personality and someone I had always enjoyed from the movie "TULSA" to his many parts in westerns.

My physical health has not been the best. I have had 3 major back surgeries. The last being 2 years ago when the doctor inserted a spinal pain stimulator to help me cope with the pain. I cannot walk a long distance without a great deal of pain. I have ridden a three wheel electric scooter for the last 15 years, but it doesn't stop me from doing most things.

My job most of the time was taking care of John and our children. I did work with John in our business for many years and a few years ago I helped a friend start his business and worked for him for 3 years.

Right now the things that keep me busy is working with the reunion committee and getting things ready and going for registration. We are both busy in our church duties and I am busy in Christian Women's Club. It seems that the older I get, the busier I stay. I am really excited about the upcoming reunion. Everyone has worked real hard to make this the best reunion yet. Many great things await you.

I am anxious to see old friends and make some new ones. Don't let anything stop you from coming to this reunion.

See ya there!

Greta "Morris" Cailloux

Greta at 40th reunion
